Profile

Passionate **Frontend Developer** with a solid foundation in modern web technologies. Experienced in creating clean, responsive UI using HTML, CSS, JavaScript, and React, with a focus on performance and user experience.

Projects

Real-Time Interactive Engagement Platform ⧉
- Developed a mini SaaS-style web application combining live polling and dynamic presentation/slider features.
- Implemented real-time data updates to instantly reflect poll results and content changes without page reload.
- Designed shareable links and QR codes to allow users to join polls or access presentations easily.
- Implemented authentication and authorization to manage secure user access and content ownership.
- Designed and managed database structures for users, polls, votes, slides, and presentation data.
- Focused on responsive UI, performance optimization, and scalable frontend architecture suitable for a SaaS product.
- **Technologies & Keywords:**JavaScript, NextJS, REST API, Authentication, indexDB, QR Code Integration, Frontend Development, SaaS Architecture

Git-Hub Repository ⧉   *Live Link* ⧉

Personal Portfolio Website with Admin Dashboard ⧉
- Built a modern and responsive personal portfolio website to showcase projects, skills, and experience.
- Explored React in depth, focusing on component-based architecture, state management, and reusable UI components.
- Designed and implemented custom UI/UX layouts based on self-created design concepts.
- Integrated animations and motion effects to enhance user experience and visual appeal.Integrated EmailJS to enable visitors to contact directly through the website without a backend server.
- **Technologies & Keywords:**React, JavaScript, EmailJS, Frontend Development, UI/UX Design, Animation Integration, Dashboard, Responsive Design

Git-Hub Repository ⧉   *Live Link* ⧉
