

MD RAHATUL ISLAM

Full-Stack Engineer

rahathridoyd2x@gmail.com || +880-1917-579030 || Sylhet , Bangladesh

LinkedIn: [linkedin.com/in/rahat-hridoy](https://www.linkedin.com/in/rahat-hridoy) || Portfolio: rahat-hridoy.vercel.app

Skills

Frontend : HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js

Backend : Node.js, Nest.js, RESTful APIs, PrismaORM, Supabase, Python (Basics).

UI & Design: Responsive Web Design, CSS Animations , Tailwind CSS, Bootstrap, SCSS

Databases & Queues: PostgreSQL , Redis, BullMQ.

DevOps & Tools: Docker, Nginx, Git, GitHub, Turborepo, Vercel, Railway, VS Code

Authentication: OAuth, JWT, Auth0, Clerk

Experience

Full-Stack Developer | November 2025 – Present

Nexrover , Remote(Intern)

- Work across the full development lifecycle from requirements gathering and system design to production deployment on a fast-moving startup product.
- Design software architecture, API contracts, and database schemas before writing code, ensuring scalability and maintainability from the ground up.
- Implement backend services with NestJS, design relational schemas with Prisma ORM, and coordinate deployments with Docker and Nginx.
- Adopted AI-assisted development workflows early: use AI tools strategically with focused, token-efficient prompts to accelerate velocity while keeping code quality high.

Projects

Maidora - Email Campaign SaaS Backend , [GitHub-Repository](#)

Technologies: NestJS, PostgreSQL, BullMQ, Redis, Docker, Nginx, PrismaORM, Clerk, Brevo, Next.js, Turborepo

- Built a scalable multi-tenant B2B email campaign API with complete data isolation per organization.
- Implemented BullMQ + Redis multi-queue system (priority, bulk, retry) enabling 100K+ emails in ~2 minutes.
- Engineered rate limiting (300 emails/min) aligned with Brevo API limits and set up Docker Compose with health checks, Nginx reverse proxy, and service dependencies.

Bulk Certificate Generation System , [GitHub-Repository](#)

Technologies: Nest JS, PostgreSQL , Prisma ORM, Puppeteer

- Dynamic Templating: Supports {{placeholder}} logic where HTML templates are automatically populated with CSV.
- Scalable Architecture: Built with NestJS for modularity and Prisma ORM for reliable PostgreSQL data management.
- High-Fidelity PDF: Leverages Puppeteer (Headless Chrome) to ensure the PDF looks exactly like the HTML/CSS design.

Education

BSc in Electrical & Electronics Engineering,

Leading University

2019 – 2024

Sylhet, Bangladesh

Language

English (Fluent) || Bangla
